Counsel for Plaintiff and the Putative Class

[Additional Counsel Listed on Signature Page]

**UNITED STATES DISTRICT COURT
 NORTHERN DISTRICT OF CALIFORNIA**

<p>BRIANA DUBE, <i>individually and on behalf of all others similarly situated</i>,</p> <p style="text-align: center;">Plaintiff,</p> <p style="text-align: center;">v.</p> <p>23ANDME, INC.,</p> <p style="text-align: center;">Defendant.</p>	<p>Case No.</p> <p>PLAINTIFF’S CLASS ACTION COMPLAINT</p> <p>DEMAND FOR JURY TRIAL</p>
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------------------------

CLASS ACTION COMPLAINT

Plaintiff, Briana Dube, individually and on behalf of all similarly situated persons, alleges the following against 23andMe, Inc. (“23andMe” or “Defendant”) based on personal knowledge with respect to herself and on information and belief derived from, among other things, investigation by her counsel and review of public documents, as to all other matters:

I. INTRODUCTION

1. Plaintiff brings this class action against 23andMe for its failure to properly secure and safeguard Plaintiff’s and other similarly situated 23andMe customers’ sensitive information, including their names, sex, date of birth, genetic results, profile photos, and geographic location (“personally identifiable information” or “PII” and/or “Protected Health Information” or “PHI,”

collectively “Private Information”) as defined by the Health Insurance Portability and Accountability Act of 1996 (“HIPAA”).

2. Defendant is a biotechnology company that sequences specific locations in an individual’s genome known to differ between people in order to create personalized genetic reports on ancestry, traits, genetic health risks, carrier status (risks of genetic diseases of offspring), and pharmacogenetics (likelihood of certain side effects to pharmaceuticals).¹ Defendant has more than 14 million customers worldwide.²

3. On or about October 6, 2023, Defendant announced, via its website, that “23andMe customer profile information that they opted into sharing through our DNA Relatives feature, was compiled from individual 23andMe.com accounts without the account users’ authorization”³ (the “Data Breach”).

4. Former and current Defendant customers are required to entrust Defendant with sensitive, non-public Private Information, without which Defendant could not perform its regular business activities, in order to obtain Defendant’s services. On information and belief, Defendant retains this information for at least many years and even after the consumer relationship has ended.

5. By obtaining, collecting, using, and deriving a benefit from the Private Information of Plaintiff and Class Members, Defendant assumed legal and equitable duties to those individuals to protect and safeguard that information from unauthorized access and intrusion.

6. In the Notice posted to Defendant’s website, 23andMe states:

We recently learned that certain 23andMe customer profile information that they opted into sharing through our DNA Relatives feature, was compiled from individual 23andMe.com accounts without the account users’ authorization.

After learning of suspicious activity, we immediately began an investigation. While we are continuing to investigate this matter, we believe threat actors were able to access certain accounts in instances where users recycled login credentials—that is, usernames and passwords that were used on 23andMe.com were the same as those used on other websites that have been previously hacked.

¹ <https://www.23andme.com/> (last visited Oct. 10, 2023).

² <https://medical.23andme.com/#:%7E:text=23andMe%20has%20more%20than%2014,own%20homes%2C%20without%20medical%20requisition> (last visited Oct. 10, 2023).

³ <https://blog.23andme.com/articles/addressing-data-security-concerns> (last visited Oct. 10, 2023).

We believe that the threat actor may have then, in violation of our Terms of Service, accessed 23andMe.com accounts without authorization and obtained information from certain accounts, including information about users' DNA Relatives profiles, to the extent a user opted into that service.⁴

7. The Notice is deficient for several reasons, including: (1) 23andMe fails to state if they were able to contain or end the cybersecurity threat, leaving victims to fear their Private Information is still insecure; and (2) 23andMe fails to state how the breach occurred.

8. Defendant failed to adequately protect Plaintiff's and Class Members' Private Information—and failed to even encrypt or redact this highly sensitive information. This unencrypted Private Information was compromised due to Defendant's negligent and/or careless acts and omissions and their utter failure to protect customers' sensitive data. Hackers targeted and obtained Plaintiff's and Class Members' Private Information because of its value in exploiting and stealing the identities of Plaintiff and Class Members. The present and continuing risk to victims of the Data Breach will remain for their respective lifetimes.

9. In fact, several news outlets have reported that Plaintiff's and Class Members' data is already for sale on the black market:

The stolen user data seems to be part of a targeted attack focused on Ashkenazi Jews. The hacker responsible for posting the sample data on BreachForum claimed it contained a staggering one million data points exclusively pertaining to this group. Additionally, data of hundreds of thousands with Chinese heritage has been disclosed.

The hacker is currently peddling 23andMe data profiles on the underground market, pricing them between \$1 to \$10. Noteworthy figures like Mark Zuckerberg, Elon Musk, and Sergey Brin are among the individuals whose profiles have been compromised. These profiles encompass basic information such as names, genders, birth years, and some additional genetic data.⁵

10. Plaintiff brings this action on behalf of all persons in the United States whose Private Information was compromised as a result of Defendant's failure to: (i) adequately protect the Private Information of Plaintiff and Class Members; (ii) warn Plaintiff and Class Members of Defendant's inadequate information security practices; and (iii) effectively secure hardware

⁴ *Id.*

⁵ <https://www.pelhamplus.com/us-news/stolen-user-data-from-23andme-users-emerges-on-breachforum/> (last visited Oct. 10, 2023).

1 containing protected Private Information using reasonable and effective security procedures free of
2 vulnerabilities and incidents. Defendant's conduct amounts at least to negligence and violates federal
3 and state statutes.

4 11. Defendant disregarded the rights of Plaintiff and Class Members by intentionally,
5 willfully, recklessly, or negligently failing to implement and maintain adequate and reasonable
6 measures and ensure those measures were followed by its IT vendors to ensure that the Private
7 Information of Plaintiff and Class Members was safeguarded, failing to take available steps to
8 prevent an unauthorized disclosure of data, and failing to follow applicable, required, and
9 appropriate protocols, policies, and procedures regarding the encryption of data, even for internal
10 use. As a result, the Private Information of Plaintiff and Class Members was compromised through
11 disclosure to an unknown and unauthorized third party.

12 12. Plaintiff and Class Members have a continuing interest in ensuring that their
13 information is and remains safe, and they should be entitled to injunctive and other equitable relief.

14 13. Plaintiff and Class Members have suffered injury as a result of Defendant's conduct.
15 These injuries include: (i) invasion of privacy; (ii) lost or diminished value of Private Information;
16 (iii) lost time and opportunity costs associated with attempting to mitigate the actual consequences of
17 the Data Breach; (iv) loss of benefit of the bargain; and (v) the continued and certainly increased risk
18 to their Private Information, which: (a) remains unencrypted and available for unauthorized third
19 parties to access and abuse; and (b) remains backed up in Defendant's possession and is subject to
20 further unauthorized disclosures so long as Defendant fails to undertake appropriate and adequate
21 measures to protect the Private Information.

22 14. Plaintiff and Class Members seek to remedy these harms and prevent any future data
23 compromise on behalf of herself and all similarly situated persons whose personal data was
24 compromised and stolen as a result of the Data Breach and who remain at risk due to Defendant's
25 inadequate data security practices.

26 **II. PARTIES**

27 15. Plaintiff is, and has been, an individual citizen and resident of New York.
28

16. Defendant is a Delaware corporation with its headquarters and principal place of business located at 223 N. Mathilda Ave., Sunnyvale, CA 94086.

III. JURISDICTION

17. The Court has subject matter jurisdiction over this action under the Class Action Fairness Act, 28 U.S.C. § 1332(d)(2). The amount in controversy exceeds \$5 million, exclusive of interest and costs. The number of class members is over 100, many of whom reside outside the state of California and have different citizenship from 23andMe, including Plaintiff. Thus, minimal diversity exists under 28 U.S.C. §1332(d)(2)(A).

18. This Court has jurisdiction over Defendant because its principal place of business is located in this District.

IV. VENUE

19. Venue is proper in this Court pursuant to 28 U.S.C. § 1391(a)(1) because Defendant's principal place of business is located in this District, a substantial part of the events giving rise to this action occurred in this District, and Defendant has harmed Class Members residing in this District.

V. DIVISIONAL ASSIGNMENT

20. Pursuant to Civil Local Rule 3-2(c), a substantial part of the events or omissions giving rise to the claims asserted in this action occurred in Santa Clara County, California, and this action should be assigned to the San Jose Division.

VI. FACTUAL ALLEGATIONS

A. *Defendant's Business*

21. According to Defendant's website:

23andMe has more than 14 million customers worldwide. Our Health + Ancestry and Membership services allows individuals to acquire this information from the privacy of their own homes, without medical requisition.⁶

22. As a condition of receiving its services, 23andMe requires that its 23andMe

⁶ <https://medical.23andme.com/> (last visited Oct. 10, 2023).

1 customers, including Plaintiff and Class Members, entrust it with sensitive personal information,
2 including perhaps the most highly sensitive category of personal information: genetic information.

3 23. The information held by Defendant in its computer systems or those of its vendors at
4 the time of the Data Breach included the unencrypted Private Information of Plaintiff and Class
5 Members.

6 24. Upon information and belief, Defendant made promises and representations to its
7 customers, including Plaintiff and Class Members, that the Private Information collected from them
8 as a condition of obtaining services at Defendant would be kept safe, confidential, that the privacy of
9 that information would be maintained, and that Defendant would delete any sensitive information
10 after it was no longer required to maintain it.

11 25. Indeed, Defendant's Privacy Policy states: "We encrypt all sensitive information and
12 conduct regular assessments to identify security vulnerabilities and threats."⁷

13 26. Plaintiff and Class Members provided their Private Information to Defendant with
14 the reasonable expectation and on the mutual understanding that Defendant would comply with its
15 obligations to keep such information confidential and secure from unauthorized access.

16 27. Plaintiff and the Class Members have taken reasonable steps to maintain the
17 confidentiality of their Private Information. Plaintiff and Class Members relied on the sophistication
18 of Defendant to keep their Private Information confidential and securely maintained, to use this
19 information for necessary purposes only, and to make only authorized disclosures of this
20 information. Plaintiff and Class Members value the confidentiality of their Private Information and
21 demand security to safeguard their Private Information.

22 28. Defendant had a duty to adopt reasonable measures to protect the Private
23 Information of Plaintiff and Class Members from involuntary disclosure to third parties and to audit,
24 monitor, and verify the integrity of its IT vendors and affiliates. Defendant has a legal duty to keep
25 consumer's Private Information safe and confidential.

26
27 ⁷ <https://www.23andme.com/privacy/> (last visited Oct. 10, 2023).

29. Defendant had obligations created by the FTC Act, HIPAA, contract, industry standards, and representations made to Plaintiff and Class Members, to keep their Private Information confidential and to protect it from unauthorized access and disclosure.

30. Defendant derived a substantial economic benefit from collecting Plaintiffs and Class Members' Private Information. Without the required submission of Private Information, Defendant could not perform the services it provides.

31. By obtaining, collecting, using, and deriving a benefit from Plaintiffs and Class Members' Private Information, Defendant assumed legal and equitable duties and knew or should have known that it was responsible for protecting Plaintiffs and Class Members' Private Information from disclosure.

B. *The Data Breach*

32. On or about October 6, 2023, 23andMe posted a notice to the 23andMe website concerning the breach ("Notice"). It states:

We recently learned that certain 23andMe customer profile information that they opted into sharing through our DNA Relatives feature, was compiled from individual 23andMe.com accounts without the account users' authorization.

After learning of suspicious activity, we immediately began an investigation. While we are continuing to investigate this matter, we believe threat actors were able to access certain accounts in instances where users recycled login credentials—that is, usernames and passwords that were used on 23andMe.com were the same as those used on other websites that have been previously hacked.

We believe that the threat actor may have then, in violation of our Terms of Service, accessed 23andMe.com accounts without authorization and obtained information from certain accounts, including information about users' DNA Relatives profiles, to the extent a user opted into that service.⁸

33. Omitted from the Notice are the details of the root cause of the Data Breach, the vulnerabilities exploited, and the remedial measures undertaken to ensure such a breach does not occur again. To date, these critical facts have not been explained or clarified to Plaintiff and Class Members, who retain a vested interest in ensuring that their Private Information remains protected.

34. This "disclosure" amounts to no real disclosure at all, as it fails to inform, with any

⁸ <https://blog.23andme.com/articles/addressing-data-security-concerns> (last visited Oct. 10, 2023).

1 degree of specificity, Plaintiff and Class Members of the Data Breach's critical facts. Without these
2 details, Plaintiff's and Class Members' ability to mitigate the harms resulting from the Data Breach
3 is severely diminished.

4 35. Defendant did not use reasonable security procedures and practices appropriate to
5 the nature of the sensitive information they were maintaining for Plaintiff and Class Members,
6 causing the exposure of Private Information, such as encrypting the information or deleting it when
7 it is no longer needed. Moreover, Defendant failed to exercise due diligence in selecting its IT
8 vendors or deciding with whom it would share sensitive Private Information.

9 36. The attacker accessed and acquired files Defendant shared with a third party
10 containing unencrypted Private Information of Plaintiff and Class Members, including their Social
11 Security numbers and other sensitive information. Plaintiff's and Class Members' Private
12 Information was accessed and stolen in the Data Breach.

13 37. Plaintiff further believes her Private Information, and that of Class Members, was
14 subsequently sold on the dark web following the Data Breach, as that is the modus operandi of
15 cybercriminals that commit cyber-attacks of this type. Moreover, following the Data Breach,
16 Plaintiff has experienced suspicious spam and believes this be an attempt to secure additional Private
17 Information from him.

18 **C. Defendant Acquires, Collects, and Stores Plaintiff's and the Class's Private**
19 **Information.**

20 38. As a condition to obtain services at 23andMe, Plaintiff and Class Members were
21 required to give their sensitive and confidential Private Information to Defendant.

22 39. Defendant retains and stores this information and derives a substantial economic
23 benefit from the Private Information that they collect. But for the collection of Plaintiff's and Class
24 Members' Private Information, Defendant would be unable to perform its services.

25 40. By obtaining, collecting, and storing the Private Information of Plaintiff and Class
26 Members, Defendant assumed legal and equitable duties and knew or should have known that they
27 were responsible for protecting the Private Information from disclosure.

28 41. Plaintiff and Class Members have taken reasonable steps to maintain the

1 confidentiality of their Private Information and relied on Defendant to keep their Private Information
 2 confidential and maintained securely, to use this information for business purposes only, and to
 3 make only authorized disclosures of this information.

4 42. Defendant could have prevented this Data Breach by properly securing and
 5 encrypting the files and file servers containing the Private Information of Plaintiff and Class
 6 Members or by exercising due diligence in selecting its IT vendors and properly auditing those
 7 vendor's security practices.

8 43. Upon information and belief, Defendant made promises to Plaintiff and Class
 9 Members to maintain and protect their Private Information, demonstrating an understanding of the
 10 importance of securing Private Information.

11 44. Defendant's negligence in safeguarding the Private Information of Plaintiff and
 12 Class Members is exacerbated by the repeated warnings and alerts directed to protecting and
 13 securing sensitive data.

14 **D. Defendant Knew or Should Have Known of the Risk Because Genetic-Testing**
 15 **Companies in Possession of Private Information Are Particularly Susceptable to**
 16 **Cyber Attacks.**

17 45. Defendant's data security obligations were particularly important given the
 18 substantial increase in cyber-attacks and/or data breaches targeting genetic-testing companies that
 19 collect and store Private Information, like Defendant, preceding the date of the breach.

20 46. Data thieves regularly target companies like Defendant's due to the highly sensitive
 21 information in their custody. Defendant knew and understood that unprotected Private Information is
 22 valuable and highly sought after by criminal parties who seek to illegally monetize that Private
 23 Information through unauthorized access.

24 47. In the third quarter of the 2023 fiscal year alone, 7333 organizations experienced
 25 data breaches, resulting in 66,658,764 individuals' personal information being compromised.⁹

26 ⁹ See <https://www.idtheftcenter.org/publication/q3-data-breach-2023-analysis/> (last accessed Oct. 11,
 27 2023).

1 48. In light of recent high profile data breaches at other industry leading companies,
2 including, Microsoft (250 million records, December 2019), Wattpad (268 million records, June
3 2020), Facebook (267 million users, April 2020), Estee Lauder (440 million records, January 2020),
4 Whisper (900 million records, March 2020), and Advanced Info Service (8.3 billion records, May
5 2020), Defendant knew or should have known that the Private Information that they collected and
6 maintained would be targeted by cybercriminals.

7 49. As a custodian of Private Information, Defendant knew, or should have known, the
8 importance of safeguarding the Private Information entrusted to it by Plaintiff and Class members,
9 and of the foreseeable consequences if its data security systems, or those of its vendors, were
10 breached, including the significant costs imposed on Plaintiff and Class Members as a result of a
11 breach.

12 50. Despite the prevalence of public announcements of data breach and data security
13 compromises, Defendant failed to take appropriate steps to protect the Private Information of
14 Plaintiff and Class Members from being compromised.

15 51. At all relevant times, Defendant knew, or reasonably should have known, of the
16 importance of safeguarding the Private Information of Plaintiff and Class Members and of the
17 foreseeable consequences that would occur if Defendant's data security system was breached,
18 including, specifically, the significant costs that would be imposed on Plaintiff and Class Members
19 as a result of a breach.

20 52. Defendant was, or should have been, fully aware of the unique type and the
21 significant volume of data on Defendant's server(s), amounting to potentially thousands of
22 individuals' detailed, Private Information, and, thus, the significant number of individuals who
23 would be harmed by the exposure of the unencrypted data.

24 53. In the Notice, Defendant offers to cover identity monitoring services for a period of
25 24 months. This is wholly inadequate to compensate Plaintiff and Class Members as it fails to
26 provide for the fact victims of data breaches and other unauthorized disclosures commonly face
27 multiple years of ongoing identity theft, financial fraud, and it entirely fails to provide sufficient
28

1 compensation for the unauthorized release and disclosure of Plaintiff and Class Members' Private
 2 Information. Moreover, once this service expires, Plaintiff and Class Members will be forced to pay
 3 out of pocket for necessary identity monitoring services.

4 54. Defendant's offer of credit and identity monitoring establishes that Plaintiff's and
 5 Class Members' sensitive Private Information *was* in fact affected, accessed, compromised, and
 6 exfiltrated from Defendant's computer systems.

7 55. The injuries to Plaintiff and Class Members were directly and proximately caused by
 8 Defendant's failure to implement or maintain adequate data security measures for the Private
 9 Information of Plaintiff and Class Members.

10 56. The ramifications of Defendant's failure to keep secure the Private Information of
 11 Plaintiff and Class Members are long lasting and severe. Once Private Information is stolen—
 12 particularly Social Security numbers—fraudulent use of that information and damage to victims may
 13 continue for years.

14 57. As a genetic-testing company in possession of its customers' and former customers'
 15 Private Information, Defendant knew, or should have known, the importance of safeguarding the
 16 Private Information entrusted to them by Plaintiff and Class Members and of the foreseeable
 17 consequences if its data security systems were breached. This includes the significant costs imposed
 18 on Plaintiff and Class Members as a result of a breach. Nevertheless, Defendant failed to take
 19 adequate cybersecurity measures to prevent the Data Breach.

20 **E. *Value of Personally Identifiable Information***

21 58. The Federal Trade Commission ("FTC") defines identity theft as "a fraud committed
 22 or attempted using the identifying information of another person without authority."¹⁰ The FTC
 23 describes "identifying information" as "any name or number that may be used, alone or in
 24 conjunction with any other information, to identify a specific person," including, among other
 25 things, "[n]ame, Social Security number, date of birth, official State or government issued driver's
 26 license or identification number, alien registration number, government passport number, employer

27 ¹⁰ 17 C.F.R. § 248.201 (2013).
 28

1 or taxpayer identification number.”¹¹

2 59. The Private Information of individuals remains of high value to criminals, as
3 evidenced by the prices they will pay through the dark web. Numerous sources cite dark web pricing
4 for stolen identity credentials.¹²

5 60. For example, Private Information can be sold at a price ranging from \$40 to \$200.¹³
6 Criminals can also purchase access to entire company data breaches from \$900 to \$4,500.¹⁴

7 61. Based on the foregoing, the information compromised in the Data Breach is
8 significantly more valuable than the loss of, for example, credit card information in a retailer data
9 breach because, there, victims can cancel or close credit and debit card accounts. The information
10 compromised in this Data Breach is impossible to “close” and difficult, if not impossible, to
11 change—names and Social Security numbers.

12 62. This data demands a much higher price on the black market. Martin Walter, senior
13 director at cybersecurity firm RedSeal, explained, “Compared to credit card information, personally
14 identifiable information . . . [is] worth more than 10x on the black market.”¹⁵

15 63. Among other forms of fraud, identity thieves may obtain driver’s licenses,
16 government benefits, medical services, and housing or even give false information to police.

17 64. The fraudulent activity resulting from the Data Breach may not come to light for
18 years. There may be a time lag between when harm occurs versus when it is discovered, and also
19 between when Private Information is stolen and when it is used. According to the U.S. Government
20 Accountability Office (“GAO”), which conducted a study regarding data breaches:

21 ¹¹ *Id.*

22 ¹² *Your personal data is for sale on the dark web. Here’s how much it costs*, DIGITAL TRENDS, Oct.
23 16, 2019, <https://www.digitaltrends.com/computing/personal-data-sold-on-the-dark-web-how-much-it-costs/> (last visited Oct. 10, 2023).

24 ¹³ *Here’s How Much Your Personal Information Is Selling for on the Dark Web*, EXPERIAN, Dec. 6,
2017, <https://www.experian.com/blogs/ask-experian/heres-how-much-your-personal-information-is-selling-for-on-the-dark-web/> (last visited Oct. 10, 2023).

25 ¹⁴ *In the Dark*, VPNOVERVIEW, 2019, <https://vpnoverview.com/privacy/anonymous-browsing/in-the-dark/> (last visited Oct. 10, 2023).

26 ¹⁵ Tim Greene, *Anthem Hack: Personal Data Stolen Sells for 10x Price of Stolen Credit Card*
27 *Numbers*, IT WORLD (Feb. 6, 2015), <https://www.networkworld.com/article/2880366/anthem-hack-personal-data-stolen-sells-for-10x-price-of-stolen-credit-card-numbers.html> (last visited Oct. 10, 2023).

[L]aw enforcement officials told us that in some cases, stolen data may be held for up to a year or more before being used to commit identity theft. Further, once stolen data have been sold or posted on the Web, fraudulent use of that information may continue for years. As a result, studies that attempt to measure the harm resulting from data breaches cannot necessarily rule out all future harm.¹⁶

F. 23andMe Failed to Comply with FTC Guidelines.

65. The Federal Trade Commission (“FTC”) has promulgated numerous guides for businesses which highlight the importance of implementing reasonable data security practices. According to the FTC, the need for data security should be factored into all business decision making. Indeed, the FTC has concluded that a company’s failure to maintain reasonable and appropriate data security for consumers’ sensitive personal information is an “unfair practice” in violation of Section 5 of the Federal Trade Commission Act (“FTCA”), 15 U.S.C. § 45. *See, e.g., FTC v. Wyndham Worldwide Corp.*, 799 F.3d 236 (3d Cir. 2015).

66. In October 2016, the FTC updated its publication, Protecting Personal Information: A Guide for Business, which established cybersecurity guidelines for businesses. The guidelines note that businesses should protect the personal customer information that they keep, properly dispose of personal information that is no longer needed, encrypt information stored on computer networks, understand their network’s vulnerabilities, and implement policies to correct any security problems. The guidelines also recommend that businesses use an intrusion detection system to expose a breach as soon as it occurs, monitor all incoming traffic for activity indicating someone is attempting to hack into the system, watch for large amounts of data being transmitted from the system, and have a response plan ready in the event of a breach.

67. The FTC further recommends that companies not maintain Private Information longer than is needed for authorization of a transaction, limit access to sensitive data, require complex passwords to be used on networks, use industry-tested methods for security, monitor the network for suspicious activity, and verify that third-party service providers have implemented

¹⁶ *Report to Congressional Requesters*, GAO, at 29 (June 2007), <https://www.gao.gov/assets/gao-07-737.pdf> (last visited Oct. 10, 2023).

1 reasonable security measures.

2 68. The FTC has brought enforcement actions against businesses for failing to
3 adequately and reasonably protect customer data by treating the failure to employ reasonable and
4 appropriate measures to protect against unauthorized access to confidential consumer data as an
5 unfair act or practice prohibited by the FTCA. Orders resulting from these actions further clarify the
6 measures businesses must take to meet their data security obligations.

7 69. As evidenced by the Data Breach, 23andMe failed to properly implement basic data
8 security practices and failed to audit, monitor, or ensure the integrity of its vendor's data security
9 practices. 23andMe's failure to employ reasonable and appropriate measures to protect against
10 unauthorized access to Plaintiff's and Class Members' Private Information constitutes an unfair act
11 or practice prohibited by Section 5 of the FTCA.

12 70. 23andMe was at all times fully aware of its obligation to protect the Private
13 Information of its customers yet failed to comply with such obligations. Defendant was also aware of
14 the significant repercussions that would result from its failure to do so.

15 **G. Defendant Fails to Comply with HIPAA Guidelines.**

16 71. Defendant is a covered Business Associate under HIPAA (45 C.F.R. § 160.103) and
17 is required to comply with the HIPAA Privacy Rule and Security Rule, 45 C.F.R. Part 160 and Part
18 164, Subparts A and E ("Standards for Privacy of Individually Identifiable Health Information"),
19 and Security Rule ("Security Standards for the Protection of Electronic Protected Health
20 Information"), 45 C.F.R. Part 160 and Part 164, Subparts A and C.

21 72. Defendant is subject to the rules and regulations for safeguarding electronic forms of
22 medical information pursuant to the Health Information Technology Act ("HITECH").¹⁷ See 42
23 U.S.C. §17921, 45 C.F.R. § 160.103.

24 73. HIPAA's Privacy Rule or *Standards for Privacy of Individually Identifiable Health*
25 *Information* establishes national standards for the protection of health information.

26
27 ¹⁷ HIPAA and HITECH work in tandem to provide guidelines and rules for maintaining protected
28 health information. HITECH references and incorporates HIPAA.

74. HIPAA's Privacy Rule or *Security Standards for the Protection of Electronic Protected Health Information* establishes a national set of security standards for protecting health information that is kept or transferred in electronic form.

75. HIPAA requires "compl[iance] with the applicable standards, implementation specifications, and requirements" of HIPAA "with respect to electronic protected health information." 45 C.F.R. § 164.302.

76. "Electronic protected health information" is "individually identifiable health information . . . that is (i) transmitted by electronic media; maintained in electronic media." 45 C.F.R. § 160.103.

77. HIPAA's Security Rule requires Defendant to do the following:

- a. Ensure the confidentiality, integrity, and availability of all electronic protected health information the covered entity or business associate creates, receives, maintains, or transmits;
- b. Protect against any reasonably anticipated threats or hazards to the security or integrity of such information;
- c. Protect against any reasonably anticipated uses or disclosures of such information that are not permitted; and
- d. Ensure compliance by its workforce.

78. HIPAA also requires Defendant to "review and modify the security measures implemented . . . as needed to continue provision of reasonable and appropriate protection of electronic protected health information." 45 C.F.R. § 164.306(e). Additionally, Defendant is required under HIPAA to "[i]mplement technical policies and procedures for electronic information systems that maintain electronic protected health information to allow access only to those persons or software programs that have been granted access rights." 45 C.F.R. § 164.312(a)(1).

79. HIPAA and HITECH also obligated Defendant to implement policies and procedures to prevent, detect, contain, and correct security violations, and to protect against uses or disclosures

1 of electronic protected health information that are reasonably anticipated but not permitted by the
2 privacy rules. *See* 45 C.F.R. § 164.306(a)(1) and § 164.306(a)(3); *see also* 42 U.S.C. §17902.

3 80. The HIPAA Breach Notification Rule, 45 C.F.R. §§ 164.400-414, also requires
4 Defendant to provide notice of the Data Breach to each affected individual “without unreasonable
5 delay and *in no case later than 60 days following discovery of the breach.*”¹⁸

6 81. HIPAA requires a covered entity to have and apply appropriate sanctions against
7 members of its workforce who fail to comply with the privacy policies and procedures of the
8 covered entity or the requirements of 45 C.F.R. Part 164, Subparts D or E. *See* 45 C.F.R. §
9 164.530(e).

10 82. HIPAA requires a covered entity to mitigate, to the extent practicable, any harmful
11 effect that is known to the covered entity of a use or disclosure of protected health information in
12 violation of its policies and procedures or the requirements of 45 C.F.R. Part 164, Subpart E by the
13 covered entity or its business associate. *See* 45 C.F.R. § 164.530(f).

14 83. HIPAA also requires the Office of Civil Rights (“OCR”), within the Department of
15 Health and Human Services (“HHS”), to issue annual guidance documents on the provisions in the
16 HIPAA Security Rule. *See* 45 C.F.R. §§ 164.302-164.318. For example, “HHS has developed
17 guidance and tools to assist HIPAA covered entities in identifying and implementing the most cost
18 effective and appropriate administrative, physical, and technical safeguards to protect the
19 confidentiality, integrity, and availability of e-PHI and comply with the risk analysis requirements of
20 the Security Rule.” US Department of Health & Human Services, Security Rule Guidance
21 Material.¹⁹ The list of resources includes a link to guidelines set by the National Institute of
22 Standards and Technology (NIST), which OCR says “represent the industry standard for good

28 2023).

business practices with respect to standards for securing e-PHI.” US Department of Health & Human Services, Guidance on Risk Analysis.²⁰

H. 23andMe Failed to Comply with Industry Standards.

83. As noted above, experts studying cybersecurity routinely identify institutions as being particularly vulnerable to cyberattacks because of the value of the Private Information which they collect and maintain.

84. Some industry best practices that should be implemented by institutions dealing with sensitive Private Information, like 23andMe, include but are not limited to: educating all employees, strong password requirements, multilayer security including firewalls, anti-virus and anti-malware software, encryption, multi-factor authentication, backing up data, and limiting which employees can access sensitive data. As evidenced by the Data Breach, Defendant failed to follow some or all of these industry best practices.

85. Other best cybersecurity practices that are standard at large institutions that store Private Information include: installing appropriate malware detection software; monitoring and limiting network ports; protecting web browsers and email management systems; setting up network systems such as firewalls, switches, and routers; monitoring and protecting physical security systems; and training staff regarding these points. As evidenced by the Data Breach, Defendant failed to follow these cybersecurity best practices.

86. Defendant failed to meet the minimum standards of any of the following frameworks: the NIST Cybersecurity Framework Version 1.1 (including without limitation PR.AC-1, PR.AC-3, PR.AC-4, PR.AC-5, PR.AC-6, PR.AC-7, PR.AT-1, PR.DS-1, PR.DS-5, PR.PT-1, PR.PT-3, DE.CM-1, DE.CM-4, DE.CM-7, DE.CM-8, and RS.CO-2), and the Center for Internet Security’s Critical Security Controls (CIS CSC), which are all established standards in reasonable cybersecurity readiness.

87. Defendant failed to comply with these accepted standards, thereby permitting the

²⁰ <https://www.hhs.gov/hipaa/for-professionals/security/guidance/guidance-risk-analysis/index.html> (last visited Oct. 11, 2023).

1 Data Breach to occur.

2 **I. 23andMe Breached Its Duty to Safeguard Plaintiff's and Class Members' Private**
 3 **Information.**

4 88. In addition to its obligations under federal and state laws, 23andMe owed a duty to
 5 Plaintiff and Class Members to exercise reasonable care in obtaining, retaining, securing,
 6 safeguarding, deleting, and protecting the Private Information in its possession from being
 7 compromised, lost, stolen, accessed, and misused by unauthorized persons. 23andMe owed a duty to
 8 Plaintiff and Class Members to provide reasonable security, including consistency with industry
 9 standards and requirements, and to ensure that its computer systems, networks, and protocols
 10 adequately protected the Private Information of Class Members

11 89. 23andMe breached its obligations to Plaintiff and Class Members and/or was
 12 otherwise negligent and reckless because it failed to properly maintain and safeguard its computer
 13 systems and data and failed to audit, monitor, or ensure the integrity of its vendor's data security
 14 practices. 23andMe's unlawful conduct includes, but is not limited to, the following acts and/or
 15 omissions:

- 16 a. Failing to maintain an adequate data security system that would reduce the risk of
 17 data breaches and cyberattacks;
- 18 b. Failing to adequately protect customers' Private Information;
- 19 c. Failing to properly monitor its own data security systems for existing intrusions;
- 20 d. Failing to audit, monitor, or ensure the integrity of its vendor's data security
 21 practices;
- 22 e. Failing to sufficiently train its employees and vendors regarding the proper handling
 23 of its customers Private Information;
- 24 f. Failing to fully comply with FTC guidelines for cybersecurity in violation of the
 25 FTCA;
- 26 g. Failing to adhere to industry standards for cybersecurity as discussed above; and
- 27 h. Otherwise breaching its duties and obligations to protect Plaintiff's and Class
 28 Members' Private Information.

90. 23andMe negligently and unlawfully failed to safeguard Plaintiff's and Class Members' Private Information by allowing cyberthieves to access its computer network and systems which contained unsecured and unencrypted Private Information.

91. Had 23andMe remedied the deficiencies in its information storage and security systems or those of its vendors and affiliates, followed industry guidelines, and adopted security measures recommended by experts in the field, it could have prevented intrusion into its information storage and security systems and, ultimately, the theft of Plaintiff's and Class Members' confidential Private Information.

J. Common Injuries & Damages

92. As a result of Defendant's ineffective and inadequate data security practices, the Data Breach, and the foreseeable consequences of Private Information ending up in the possession of criminals, the risk of identity theft to the Plaintiff and Class Members has materialized and is imminent, and Plaintiff and Class Members have all sustained actual injuries and damages, including: (a) invasion of privacy; (b) loss of time and loss of productivity incurred mitigating the materialized risk and imminent threat of identity theft risk; (c) the loss of benefit of the bargain (price premium damages); (d) diminution of value of their Private Information; (e) invasion of privacy; and (f) the continued risk to their Private Information, which remains in the possession of Defendant, and which is subject to further breaches, so long as Defendant fails to undertake appropriate and adequate measures to protect Plaintiff's and Class Members' Private Information.

93. Moreover, this Data Breach is problematic, in particular, because of the unique harm it will result in for Plaintiff and Class Members. Specifically, Plaintiff and some Class Members will be targeted for violence, due to their statuses of having Jewish Heritage.

94. According to the Anti-Defamation League, there were 3,697 anti-Semitic incidents in the United States during 2022.²¹ "This is a 36% increase from the 2,717 incidents tabulated in

²¹ See Anti-Defamation League, *Audit of Antisemitic Incidents 2022*, available at <https://www.adl.org/resources/report/audit-antisemitic-incidents-2022> (last accessed Oct. 16, 2023).

2021 and the highest number on record since ADL began tracking antisemitic incidents in 1979.”²²

95. The risk of violence to Plaintiff and some Class Members, as a result of the Data Breach and exposure of their heritages, is particularly high due to the current political climate. “[M]ore than 3,000 lives” have already been lost in the Israel-Palestine conflict since “Hamas launched an unprecedented surprise attack on Oct[ober] 7[,] [2023][.]”²³ For instance, in Chicago, a six-year old boy has already experienced a violent hate attack, purportedly in response to the recent events in the Israel-Palestine conflict.²⁴

K. The Data Breach Increases Victims’ Risk of Identity Theft.

96. Plaintiff and Class Members are at a heightened risk of identity theft for years to come.

97. The unencrypted Private Information of Class Members will end up for sale on the dark web because that is the *modus operandi* of hackers. In addition, unencrypted Private Information may fall into the hands of companies that will use the detailed Private Information for targeted marketing without the approval of Plaintiff and Class Members. Unauthorized individuals can easily access the Private Information of Plaintiff and Class Members.

98. The link between a data breach and the risk of identity theft is simple and well established. Criminals acquire and steal Private Information to monetize the information. Criminals monetize the data by selling the stolen information on the black market to other criminals who then utilize the information to commit a variety of identity theft related crimes discussed below.

99. Because a person’s identity is akin to a puzzle with multiple data points, the more accurate pieces of data an identity thief obtains about a person, the easier it is for the thief to take on the victim’s identity—or track the victim to attempt other hacking crimes against the individual to

²² *Id.*

²³ See Isabel Debre, *What to know in the latest Israel-Hamas war*, available at <https://apnews.com/article/israel-gaza-hamas-militants-conflict-war-b6ea877aa1ee96303aa0870d741da777> (last accessed Oct. 16, 2023).

²⁴ See New York Times, *6-Year-Old Boy Fatally Stabbed in Anti-Muslim Attack, Authorities Say*, available at <https://www.nytimes.com/2023/10/15/us/muslim-boy-stabbed-landlord-chicago.html> (last accessed Oct. 16, 2023).

1 obtain more data to perfect a crime.

2 100. For example, armed with just a name and date of birth, a data thief can utilize a
3 hacking technique referred to as “social engineering” to obtain even more information about a
4 victim’s identity, such as a person’s login credentials or Social Security number. Social engineering
5 is a form of hacking whereby a data thief uses previously acquired information to manipulate and
6 trick individuals into disclosing additional confidential or personal information through means such
7 as spam phone calls and text messages or phishing emails. Data Breaches can be the starting point
8 for these additional targeted attacks on the victim.

9 101. One such example of criminals piecing together bits and pieces of compromised
10 Private Information for profit is the development of “Fullz” packages.²⁵

11 102. With “Fullz” packages, cyber-criminals can cross-reference two sources of Private
12 Information to marry unregulated data available elsewhere to criminally stolen data with an
13 astonishingly complete scope and degree of accuracy in order to assemble complete dossiers on
14 individuals.

15 103. The development of “Fullz” packages means here that the stolen Private Information
16 from the Data Breach can easily be used to link and identify it to Plaintiff’s and Class Members’
17 phone numbers, email addresses, and other unregulated sources and identifiers. In other words, even
18 if certain information such as emails, phone numbers, or credit card numbers may not be included in
19 the Private Information that was exfiltrated in the Data Breach, criminals may still easily create a
20 Fullz package and sell it at a higher price to unscrupulous operators and criminals (such as illegal

21 ²⁵ “Fullz” is fraudster speak for data that includes the information of the victim, including, but not
22 limited to, the name, address, credit card information, social security number, date of birth, and
23 more. As a rule of thumb, the more information you have on a victim, the more money that can be
24 made off those credentials. Fullz are usually pricier than standard credit card credentials,
25 commanding up to \$100 per record (or more) on the dark web. Fullz can be cashed out (turning
26 credentials into money) in various ways, including performing bank transactions over the phone with
27 the required authentication details in-hand. Even “dead Fullz,” which are Fullz credentials associated
28 with credit cards that are no longer valid, can still be used for numerous purposes, including tax
refund scams, ordering credit cards on behalf of the victim, or opening a “mule account” (an account
that will accept a fraudulent money transfer from a compromised account) without the victim’s
knowledge. *See, e.g.,* Brian Krebs, *Medical Records for Sale in Underground Stolen from Texas Life Insurance Firm*, Krebs on Security (Sep. 18, 2014), <https://krebsonsecurity.com/2014/09/medical-records-for-sale-in-underground-stolen-from-texas-life-insurance-firm> (last visited Oct. 10, 2023).

1 and scam telemarketers) over and over.

2 104. The existence and prevalence of “Fullz” packages means that the Private
3 Information stolen from the data breach can easily be linked to the unregulated data (like driver’s
4 license numbers) of Plaintiff and the other Class Members.

5 105. Thus, even if certain information (such as driver’s license numbers) was not stolen in
6 the data breach, criminals can still easily create a comprehensive “Fullz” package.

7 106. Then, this comprehensive dossier can be sold—and then resold in perpetuity—to
8 crooked operators and other criminals (like illegal and scam telemarketers).

9 **L. *Loss Of Time to Mitigate Risk of Identity Theft and Fraud***

10 107. As a result of the recognized risk of identity theft, when a Data Breach occurs, and
11 an individual is notified by a company that their Private Information was compromised, as in this
12 Data Breach, the reasonable person is expected to take steps and spend time to address the dangerous
13 situation, learn about the breach, and otherwise mitigate the risk of becoming a victim of identity
14 theft of fraud. Failure to spend time taking steps to review accounts or credit reports could expose
15 the individual to greater financial harm—yet, the resource and asset of time has been lost.

16 108. Plaintiff and Class Members have spent, and will spend additional time in the future,
17 on a variety of prudent actions to remedy the harms they have or may experience as a result of the
18 Data Breach, such as contacting credit bureaus to place freezes on their accounts; changing
19 passwords and resecuring their own computer networks; and checking their financial accounts for
20 any indication of fraudulent activity, which may take years to detect.

21 109. These efforts are consistent with the U.S. Government Accountability Office that
22 released a report in 2007 regarding data breaches (“GAO Report”) in which it noted that victims of
23 identity theft will face “substantial costs and time to repair the damage to their good name and credit
24 record.”²⁶

25 110. These efforts are also consistent with the steps that FTC recommends that data

26 ²⁶ See United States Government Accountability Office, GAO-07-737, Personal Information: Data
27 Breaches Are Frequent, but Evidence of Resulting Identity Theft Is Limited; However, the Full
28 Extent Is Unknown (June 2007), <https://www.gao.gov/new.items/d07737.pdf>.

1 breach victims take several steps to protect their personal and financial information after a data
 2 breach, including: contacting one of the credit bureaus to place a fraud alert (consider an extended
 3 fraud alert that lasts for seven years if someone steals their identity), reviewing their credit reports,
 4 contacting companies to remove fraudulent charges from their accounts, placing a credit freeze on
 5 their credit, and correcting their credit reports.²⁷

6 111. And for those Class Members who experience actual identity theft and fraud, the
 7 United States Government Accountability Office released a report in 2007 regarding data breaches
 8 (“GAO Report”) in which it noted that victims of identity theft will face “substantial costs and time
 9 to repair the damage to their good name and credit record.”²⁸

10 **M. Diminution Value of Private Information**

11 112. Private Information is a valuable property right.²⁹ Its value is axiomatic, considering
 12 the value of Big Data in corporate America and the consequences of cyber thefts include heavy
 13 prison sentences. Even this obvious risk to reward analysis illustrates beyond doubt that Private
 14 Information has considerable market value.

15 113. An active and robust legitimate marketplace for Private Information exists. In 2019,
 16 the data brokering industry was worth roughly \$200 billion.³⁰

17 114. In fact, the data marketplace is so sophisticated that consumers can actually sell their
 18 non-public information directly to a data broker who in turn aggregates the information and provides
 19 it to marketers or app developers.^{31,32}

21 ²⁷ See Federal Trade Commission, *Identity Theft.gov*, <https://www.identitytheft.gov/Steps> (last
 22 visited Oct. 10, 2023).

23 ²⁸ See “Data Breaches Are Frequent, but Evidence of Resulting Identity Theft Is Limited; However,
 the Full Extent Is Unknown,” at 2, U.S. GOV’T ACCOUNTABILITY OFFICE, June 2007,
<https://www.gao.gov/new.items/d07737.pdf> (last visited Oct. 10, 2023) (“GAO Report”).

24 ²⁹ See, e.g., Randall T. Soma, et al., Corporate Privacy Trend: The “Value” of Personally Identifiable
 Information (“Private Information”) Equals the “Value” of Financial Assets, 15 RICH. J.L. & TECH.
 11, at *3-4 (2009) (“Private Information, which companies obtain at little cost, has quantifiable
 25 value that is rapidly reaching a level comparable to the value of traditional financial assets.”)
 (citations omitted).

26 ³⁰ <https://www.latimes.com/business/story/2019-11-05/column-data-brokers> (last visited Oct. 10,
 2023).

27 ³¹ <https://datacoup.com/> (last visited Oct. 10, 2023).

28 ³² <https://digi.me/what-is-digime/> (last visited Oct. 10, 2023).

115. Consumers who agree to provide their web browsing history to the Nielsen Corporation can receive up to \$50.00 a year.³³

116. Conversely, sensitive Private Information can sell for as much as \$363 per record on the dark web according to the Infosec Institute.³⁴

117. As a result of the Data Breach, Plaintiff's and Class Members' Private Information, which has an inherent market value in both legitimate and dark markets, has been damaged and diminished by its compromise and unauthorized release. However, this transfer of value occurred without any consideration paid to Plaintiff or Class Members for their property, resulting in an economic loss. Moreover, the Private Information is now readily available, and the rarity of the Data has been lost, thereby causing additional loss of value.

118. Based on the foregoing, the information compromised in the Data Breach is significantly more valuable than the loss of, for example, credit card information in a retailer data breach because, there, victims can cancel or close credit and debit card accounts. The information compromised in this Data Breach is impossible to "close" and difficult, if not impossible, to change, e.g., names and Social Security numbers.

119. Among other forms of fraud, identity thieves may obtain driver's licenses, government benefits, medical services, and housing or even give false information to police.

120. The fraudulent activity resulting from the Data Breach may not come to light for years.

121. At all relevant times, Defendant knew, or reasonably should have known, of the importance of safeguarding the Private Information of Plaintiff and Class Members, and of the foreseeable consequences that would occur if Defendant's data security system was breached, including, specifically, the significant costs that would be imposed on Plaintiff and Class Members as a result of a breach.

³³ Nielsen Computer & Mobile Panel, *Frequently Asked Questions*, <https://computermobilepanel.nielsen.com/ui/US/en/faqen.html> (last visited Oct. 10, 2023).

³⁴ See Ashiq Ja, *Hackers Selling Healthcare Data in the Black Market*, InfoSec (July 27, 2015), <https://resources.infosecinstitute.com/topic/hackers-selling-healthcare-data-in-the-black-market/> (last visited Oct. 10, 2023).

122. Defendant was, or should have been, fully aware of the unique type and the significant volume of data on Defendant's network, amounting to thousands of individuals' detailed personal information, upon information and belief, and thus, the significant number of individuals who would be harmed by the exposure of the unencrypted data.

123. The injuries to Plaintiff and Class Members were directly and proximately caused by Defendant's failure to implement or maintain adequate data security measures for the Private Information of Plaintiff and Class Members.

N. *Future Cost of Credit and Identity Theft Monitoring is Reasonable and Necessary.*

124. Given the type of targeted attack in this case and sophisticated criminal activity, the type of Private Information involved, and the volume of data obtained in the Data Breach, there is a strong probability that entire batches of stolen information have been placed, or will be placed, on the black market/dark web for sale and to be purchased by criminals intending to utilize the Private Information for identity theft crimes—*e.g.*, opening bank accounts in the victims' names to make purchases or to launder money; file false tax returns; take out loans or lines of credit; or file false unemployment claims.

125. Such fraud may go undetected until debt collection calls commence months, or even years, later. An individual may not know that her or her Social Security Number was used to file for unemployment benefits until law enforcement notifies the individual's employer of the suspected fraud. Fraudulent tax returns are typically discovered only when an individual's authentic tax return is rejected.

126. Consequently, Plaintiff and Class Members are at a present and continuous risk of fraud and identity theft for many years into the future.

127. The retail cost of credit monitoring and identity theft monitoring can cost around \$200 a year per Class Member. This is reasonable and necessary cost to monitor to protect Class Members from the risk of identity theft that arose from Defendant's Data Breach. This is a future cost for a minimum of five years that Plaintiff and Class Members would not need to bear but for Defendant's failure to safeguard their Private Information.

O. *Loss of the Benefit of the Bargain*

128. Furthermore, Defendant's poor data security deprived Plaintiff and Class Members of the benefit of their bargain. When agreeing to pay Defendant and/or its agents for products and/or services, Plaintiff and other reasonable consumers understood and expected that they were, in part, paying for the product and/or service and necessary data security to protect the Private Information, when in fact, Defendant did not provide the expected data security. Accordingly, Plaintiff and Class Members received products and/or services that were of a lesser value than what they reasonably expected to receive under the bargains they struck with Defendant.

P. *Plaintiff Hoffman's Experience*

129. Plaintiff Hoffman is a 23andMe customer, who took a genetic test and submitted it to 23andMe in or about 2023.

130. In order to become a customer of 23andMe, Plaintiff Hoffman was required to provide her Private Information to Defendant, including her name, sex, date of birth, geographic location, and information related to her unique genetic code.

131. At the time of the Data Breach—on or before October 6, 2023—Defendant retained Plaintiff Hoffman's Private Information in its system.

132. Plaintiff Hoffman is very careful about sharing her sensitive Private Information. Plaintiff stores any documents containing her Private Information in a safe and secure location. She has never knowingly transmitted unencrypted sensitive Private Information over the internet or any other unsecured source. Plaintiff would not have entrusted her Private Information to Defendant had she known of Defendant's lax data security policies.

133. Plaintiff Hoffman was notified of the Data Breach via receiving an email from Notice on 23andMe, on or about October 12, 2023. According to the Notice, Plaintiff's Private Information was improperly accessed and obtained by unauthorized third parties.

134. As a result of the Data Breach, and at the direction of Defendant's Notice, Plaintiff Hoffman made reasonable efforts to mitigate the impact of the Data Breach, including researching and verifying the legitimacy of the Data Breach upon receiving the Notice Letter. Plaintiff has spent

1 significant time dealing with the Data Breach—valuable time Plaintiff otherwise would have spent on
 2 other activities, including but not limited to work and/or recreation. This time has been lost forever
 3 and cannot be recaptured.

4 135. Plaintiff Hoffman suffered actual injury from having her Private Information
 5 compromised as a result of the Data Breach including, but not limited to: (i) lost or diminished value
 6 of her Private Information; (ii) lost opportunity costs associated with attempting to mitigate the
 7 actual consequences of the Data Breach, including but not limited to lost time; (iii) invasion of
 8 privacy; (iv) loss of benefit of the bargain; and (v) the continued and certainly increased risk to her
 9 Private Information, which: (a) remains unencrypted and available for unauthorized third parties to
 10 access and abuse; and (b) remains backed up in Defendant's possession and is subject to further
 11 unauthorized disclosures so long as Defendant fails to undertake appropriate and adequate measures
 12 to protect the Private Information.

13 136. The Data Breach has caused Plaintiff Hoffman to suffer fear, anxiety, and stress,
 14 which has been compounded by the fact that Defendant has still not fully informed her of key details
 15 about the Data Breach's occurrence.

16 137. As a result of the Data Breach, Plaintiff Hoffman anticipates spending considerable
 17 time and money on an ongoing basis to try to mitigate and address harms caused by the Data Breach.

18 138. As a result of the Data Breach, Plaintiff Hoffman is at a present risk and will
 19 continue to be at increased risk of identity theft and fraud, and other risks unique to genetic
 20 information theft, such as health insurance discrimination, for years to come.

21 139. Plaintiff Hoffman has a continuing interest in ensuring that her Private Information,
 22 which, upon information and belief, remains backed up in Defendant's possession, is protected and
 23 safeguarded from future breaches.

24 **VII. CLASS ACTION ALLEGATIONS**

25 140. Plaintiff brings this action individually and on behalf of all other persons similarly
 26 situated, pursuant to Federal Rule of Civil Procedure 23(a), 23(b)(1), 23(b)(2), and 23(b)(3).

27 141. Specifically, Plaintiff proposes the following class definitions, subject to amendment
 28

1 as appropriate:

2 **Nationwide Class**

3 All individuals in the United States whose Private Information was disclosed in the Data Breach (the “Class”).

4 **Illinois Subclass**

5 All individuals in the State of Illinois whose Private Information was disclosed in the Data Breach (the “Illinois Subclass”).

6 142. Excluded from the Classes are Defendant and its parents or subsidiaries, any entities
7 in which it has a controlling interest, as well as its officers, directors, affiliates, legal representatives,
8 heirs, predecessors, successors, and assigns. Also excluded is any Judge to whom this case is
9 assigned as well as their judicial staff and immediate family members.

10 143. Plaintiff reserves the right to modify or amend the definition of the proposed Class
11 and/or Illinois Subclass, as well as add subclasses, before the Court determines whether certification
12 is appropriate.

13 144. The proposed Classes meet the criteria for certification under Fed. R. Civ. P. 23(a),
14 (b)(2), and (b)(3).

15 145. Numerosity. The Class Members are so numerous that joinder of all members is
16 impracticable. Upon information and belief, Plaintiff believes that the proposed Class includes
17 thousands of individuals who have been damaged by Defendant’s conduct as alleged herein. The
18 precise number of Class Members is unknown to Plaintiff but may be ascertained from Defendant’s
19 records.

20 146. Commonality. There are questions of law and fact common to the Class which
21 predominate over any questions affecting only individual Class Members. These common questions
22 of law and fact include, without limitation:

- 23 a. Whether 23andMe engaged in the conduct alleged herein;
- 24 b. Whether 23andMe’s conduct violated the FTCA and HIPAA;
- 25 c. When 23andMe learned of the Data Breach;
- 26 d. Whether 23andMe’s response to the Data Breach was adequate;
- 27 e. Whether 23andMe unlawfully shared, lost, or disclosed Plaintiff’s and Class

Members' Private Information;

- f. Whether 23andMe failed to implement and maintain reasonable security procedures and practices appropriate to the nature and scope of the Private Information compromised in the Data Breach;
- g. Whether 23andMe's data security systems prior to and during the Data Breach complied with applicable data security laws and regulations;
- h. Whether 23andMe's data security systems prior to and during the Data Breach were consistent with industry standards;
- i. Whether 23andMe owed a duty to Class Members to safeguard their Private Information;
- j. Whether 23andMe breached its duty to Class Members to safeguard their Private Information;
- k. Whether hackers obtained Class Members' Private Information via the Data Breach;
- l. Whether 23andMe had a legal duty to provide timely and accurate notice of the Data Breach to Plaintiff and the Class Members;
- m. Whether 23andMe breached its duty to provide timely and accurate notice of the Data Breach to Plaintiff and Class Members;
- n. Whether 23andMe knew or should have known that its data security systems and monitoring processes were deficient;
- o. What damages Plaintiff and Class Members suffered as a result of 23andMe's misconduct;
- p. Whether 23andMe's conduct was negligent;
- q. Whether 23andMe was unjustly enriched;
- r. Whether Plaintiff and Class Members are entitled to actual and/or statutory damages;
- s. Whether Plaintiff and Class Members are entitled to additional credit or identity monitoring and monetary relief; and

1 t. Whether Plaintiff and Class Members are entitled to equitable relief, including
2 injunctive relief, restitution, disgorgement, and/or the establishment of a
3 constructive trust.

4 147. Typicality. Plaintiff's claims are typical of those of other Class Members because
5 Plaintiff's Private Information, like that of every other Class Member, was compromised in the Data
6 Breach. Plaintiff's claims are typical of those of the other Class Members because, inter alia, all
7 Class Members were injured through the common misconduct of 23andMe. Plaintiff is advancing
8 the same claims and legal theories on behalf of herself and all other Class Members, and there are no
9 defenses that are unique to Plaintiff. The claims of Plaintiff and those of Class Members arise from
10 the same operative facts and are based on the same legal theories.

11 148. Adequacy of Representation. Plaintiff will fairly and adequately represent and
12 protect the interests of Class Members. Plaintiff's counsel is competent and experienced in litigating
13 class actions, including data privacy litigation of this kind.

14 149. Predominance. 23andMe has engaged in a common course of conduct toward
15 Plaintiff and Class Members in that all of Plaintiff's and Class Members' data was stored on the
16 same computer systems and unlawfully accessed and exfiltrated in the same way. The common
17 issues arising from 23andMe's conduct affecting Class Members set out above predominate over any
18 individualized issues. Adjudication of these common issues in a single action has important and
19 desirable advantages of judicial economy.

20 150. Superiority. A Class action is superior to other available methods for the fair and
21 efficient adjudication of this controversy and no unusual difficulties are likely to be encountered in
22 the management of this class action. Class treatment of common questions of law and fact is superior
23 to multiple individual actions or piecemeal litigation. Absent a Class action, most Class Members
24 would likely find that the cost of litigating their individual claims is prohibitively high and would
25 therefore have no effective remedy. The prosecution of separate actions by individual Class
26 Members would create a risk of inconsistent or varying adjudications with respect to individual
27 Class Members, which would establish incompatible standards of conduct for 23andMe. In contrast,

conducting this action as a class action presents far fewer management difficulties, conserves judicial resources and the parties' resources, and protects the rights of each Class Member.

151. Class certification is also appropriate under Fed. R. Civ. P. 23(b)(2). 23andMe has acted and/or refused to act on grounds generally applicable to the Class such that final injunctive relief and/or corresponding declaratory relief is appropriate as to the Class as a whole.

152. Finally, all members of the proposed Class are readily ascertainable. 23andMe has access to the names and addresses and/or email addresses of Class Members affected by the Data Breach. Class Members have already been preliminarily identified and sent Notice of the Data Breach by 23andMe.

CLAIMS FOR RELIEF

COUNT I

Negligence and Negligence *Per Se*

(On Behalf of Plaintiff and the Class)

153. Plaintiff restates and realleges paragraphs 1 through 152 above as if fully set forth herein.

154. Defendant requires its customers, including Plaintiff and Class Members, to submit non-public Private Information in the ordinary course of providing its services.

155. Defendant gathered and stored the Private Information of Plaintiff and Class Members as part of its business of soliciting its services to its clients and its clients' customers, which solicitations and services affect commerce.

156. Plaintiff and Class Members entrusted Defendant with their Private Information with the understanding that Defendant would safeguard their information.

157. Defendant had full knowledge of the sensitivity of the Private Information and the types of harm that Plaintiff and Class Members could and would suffer if the Private Information were wrongfully disclosed.

158. By assuming the responsibility to collect and store this data, and in fact doing so, and sharing it and using it for commercial gain, Defendant had a duty of care to use reasonable

1 means to secure and to prevent disclosure of the information, and to safeguard the information from
2 theft. Defendant's duty included a responsibility to exercise due diligence in selecting IT vendors
3 and to audit, monitor, and ensure the integrity of its vendor's systems and practices and to give
4 prompt notice to those affected in the case of a data breach.

5 159. Defendant had a duty to employ reasonable security measures under Section 5 of
6 the Federal Trade Commission Act, 15 U.S.C. § 45, which prohibits "unfair . . . practices in or
7 affecting commerce," including, as interpreted and enforced by the FTC, the unfair practice of
8 failing to use reasonable measures to protect confidential data.

9 160. Defendant's duty to use reasonable security measures under HIPAA required
10 Defendant to "reasonably protect" confidential data from "any intentional or unintentional use or
11 disclosure" and to "have in place appropriate administrative, technical, and physical safeguards to
12 protect the privacy of protected health information." 45 C.F.R. § 164.530(c)(1). Some or all of the
13 healthcare and/or medical information at issue in this case constitutes "protected health
14 information" within the meaning of HIPAA.

15 161. Defendant owed a duty of care to Plaintiff and Class Members to provide data
16 security consistent with industry standards and other requirements discussed herein, and to ensure
17 that its systems and networks, and the personnel responsible for them, adequately protected the
18 Private Information.

19 162. Defendant's duty of care to use reasonable security measures arose as a result of the
20 special relationship that existed between 23andMe and Plaintiff and Class Members. That special
21 relationship arose because Plaintiff and the Class entrusted 23andMe with their confidential Private
22 Information, a necessary part of being customers of Defendant.

23 163. Defendant's duty to use reasonable care in protecting confidential data arose not
24 only as a result of the statutes and regulations described above, but also because Defendant is
25 bound by industry standards to protect confidential Private Information.

26 164. Defendant was subject to an "independent duty," untethered to any contract
27 between Defendant and Plaintiff or the Class.

165. Defendant also had a duty to exercise appropriate clearinghouse practices to remove former customers' Private Information it was no longer required to retain pursuant to regulations.

166. Moreover, Defendant had a duty to promptly and adequately notify Plaintiff and the Class of the Data Breach.

167. Defendant had and continues to have a duty to adequately disclose that the Private Information of Plaintiff and the Class within Defendant's possession might have been compromised, how it was compromised, and precisely the types of data that were compromised and when. Such notice was necessary to allow Plaintiff and the Class to take steps to prevent, mitigate, and repair any identity theft and the fraudulent use of their Private Information by third parties.

168. Defendant breached its duties, pursuant to the FTC Act, HIPAA, and other applicable standards, and thus was negligent, by failing to use reasonable measures to protect Class Members' Private Information. The specific negligent acts and omissions committed by Defendant include, but are not limited to, the following:

- a. Failing to adopt, implement, and maintain adequate security measures to safeguard Class Members' Private Information;
- b. Failing to adequately monitor the security of their networks and systems;
- c. Failing to audit, monitor, or ensure the integrity of its vendor's data security practices;
- d. Allowing unauthorized access to Class Members' Private Information;
- e. Failing to detect in a timely manner that Class Members' Private Information had been compromised;
- f. Failing to remove former customers' Private Information it was no longer required to retain pursuant to regulations; and
- g. Failing to timely and adequately notify Class Members about the Data Breach's occurrence and scope, so that they could take appropriate steps to mitigate the potential for identity theft and other damages.

1 169. Defendant violated Section 5 of the FTC Act by failing to use reasonable measures
2 to protect Private Information and not complying with applicable industry standards, as described
3 in detail herein. Defendant's conduct was particularly unreasonable given the nature and amount of
4 Private Information it obtained and stored and the foreseeable consequences of the immense
5 damages that would result to Plaintiff and the Class.

6 170. Plaintiff and Class Members were within the class of persons the Federal Trade
7 Commission Act were intended to protect and the type of harm that resulted from the Data Breach
8 was the type of harm these statutes were intended to guard against.

9 171. Defendant's violations of Section 5 of the FTC Act and HIPAA constitute
10 negligence per se.

11 172. The FTC has pursued enforcement actions against businesses, which, as a result of
12 their failure to employ reasonable data security measures and avoid unfair and deceptive practices,
13 caused the same harm as that suffered by Plaintiff and the Class.

14 173. A breach of security, unauthorized access, and resulting injury to Plaintiff and the
15 Class was reasonably foreseeable, particularly in light of Defendant's inadequate security practices.

16 174. It was foreseeable that Defendant's failure to use reasonable measures to protect
17 Class Members' Private Information would result in injury to Class Members. Further, the breach
18 of security was reasonably foreseeable given the known high frequency of cyberattacks and data
19 breaches at large corporations.

20 175. Defendant has full knowledge of the sensitivity of the Private Information and the
21 types of harm that Plaintiff and the Class could and would suffer if the Private Information were
22 wrongfully disclosed.

23 176. Plaintiff and the Class were the foreseeable and probable victims of any inadequate
24 security practices and procedures. Defendant knew or should have known of the inherent risks in
25 collecting and storing the Private Information of Plaintiff and the Class, the critical importance of
26 providing adequate security of that Private Information, and the necessity for encrypting Private
27 Information stored on Defendant's systems.

1 177. It was therefore foreseeable that the failure to adequately safeguard Class
2 Members' Private Information would result in one or more types of injuries to Class Members.

3 178. Plaintiff and the Class had no ability to protect their Private Information that was
4 in, and possibly remains in, Defendant's possession.

5 179. Defendant was in a position to protect against the harm suffered by Plaintiff and
6 the Class as a result of the Data Breach.

7 180. Defendant's duty extended to protecting Plaintiff and the Class from the risk of
8 foreseeable criminal conduct of third parties, which has been recognized in situations where the
9 actor's own conduct or misconduct exposes another to the risk or defeats protections put in place to
10 guard against the risk, or where the parties are in a special relationship. *See* Restatement (Second)
11 of Torts § 302B. Numerous courts and legislatures have also recognized the existence of a specific
12 duty to reasonably safeguard personal information.

13 181. Defendant has admitted that the Private Information of Plaintiff and the Class was
14 wrongfully lost and disclosed to unauthorized third persons as a result of the Data Breach.

15 182. But for Defendant's wrongful and negligent breach of duties owed to Plaintiff and
16 the Class, the Private Information of Plaintiff and the Class would not have been compromised.

17 183. There is a close causal connection between Defendant's failure to implement
18 security measures to protect the Private Information of Plaintiff and the Class and the harm, or risk
19 of imminent harm, suffered by Plaintiff and the Class. The Private Information of Plaintiff and the
20 Class was lost and accessed as the proximate result of Defendant's failure to exercise reasonable
21 care in safeguarding such Private Information by adopting, implementing, and maintaining
22 appropriate security measures.

23 184. As a direct and proximate result of Defendant's negligence, Plaintiff and the Class
24 have suffered and will suffer injury, including but not limited to: (i) invasion of privacy; (ii) lost or
25 diminished value of Private Information; (iii) lost time and opportunity costs associated with
26 attempting to mitigate the actual consequences of the Data Breach; (iv) loss of benefit of the
27 bargain; and (v) the continued and certainly increased risk to their Private Information, which: (a)
28

1 remains unencrypted and available for unauthorized third parties to access and abuse; and (b)
 2 remains backed up in Defendant's possession and is subject to further unauthorized disclosures so
 3 long as Defendant fails to undertake appropriate and adequate measures to protect the Private
 4 Information.

5 185. As a direct and proximate result of Defendant's negligence, Plaintiff and the Class
 6 have suffered and will continue to suffer other forms of injury and/or harm, including, but not
 7 limited to, anxiety, emotional distress, loss of privacy, and other economic and non-economic
 8 losses.

9 186. Additionally, as a direct and proximate result of Defendant's negligence, Plaintiff
 10 and the Class have suffered and will suffer the continued risks of exposure of their Private
 11 Information, which remain in Defendant's possession and is subject to further unauthorized
 12 disclosures so long as Defendant fails to undertake appropriate and adequate measures to protect
 13 the Private Information in its continued possession.

14 187. Plaintiff and Class Members are entitled to compensatory and consequential
 15 damages suffered as a result of the Data Breach.

16 188. Defendant's negligent conduct is ongoing, in that it still holds the Private
 17 Information of Plaintiff and Class Members in an unsafe and insecure manner.

18 189. Plaintiff and Class Members are also entitled to injunctive relief requiring
 19 Defendant to (i) strengthen its data security systems and monitoring procedures; (ii) submit to
 20 future annual audits of those systems and monitoring procedures; and (iii) continue to provide
 21 adequate credit monitoring to all Class Members.

22 COUNT II

23 **Breach Of Implied Contract**

24 **(On Behalf of Plaintiff and the Class)**

25 190. Plaintiff restates and realleges paragraphs 1 through 152 above as if fully set forth
 26 herein.

27 191. Plaintiff and Class Members were required to provide their Private Information to
 28

1 Defendant as a condition of receiving services from Defendant.

2 192. Plaintiff and the Class entrusted their Private Information to Defendant. In so
3 doing, Plaintiff and the Class entered into implied contracts with Defendant by which Defendant
4 agreed to safeguard and protect such information, to keep such information secure and confidential,
5 and to timely and accurately notify Plaintiff and the Class if their data had been breached and
6 compromised or stolen.

7 193. In entering into such implied contracts, Plaintiff and Class Members reasonably
8 believed and expected that Defendant's data security practices complied with relevant laws and
9 regulations and were consistent with industry standards.

10 194. Implicit in the agreement between Plaintiff and Class Members and the Defendant
11 to provide Private Information, was the latter's obligation to: (a) use such Private Information for
12 business purposes only, (b) take reasonable steps to safeguard that Private Information, (c) prevent
13 unauthorized disclosures of the Private Information, (d) provide Plaintiff and Class Members with
14 prompt and sufficient notice of any and all unauthorized access and/or theft of their Private
15 Information, (e) reasonably safeguard and protect the Private Information of Plaintiff and Class
16 Members from unauthorized disclosure or uses, (f) retain the Private Information only under
17 conditions that kept such information secure and confidential.

18 195. The mutual understanding and intent of Plaintiff and Class Members on the one
19 hand, and Defendant, on the other, is demonstrated by their conduct and course of dealing.

20 196. Defendant solicited, offered, and invited Plaintiff and Class Members to provide
21 their Private Information as part of Defendant's regular business practices. Plaintiff and Class
22 Members accepted Defendant's offers and provided their Private Information to Defendant.

23 197. In accepting the Private Information of Plaintiff and Class Members, Defendant
24 understood and agreed that it was required to reasonably safeguard the Private Information from
25 unauthorized access or disclosure.

26 198. On information and belief, at all relevant times Defendant promulgated, adopted,
27 and implemented written privacy policies whereby it expressly promised Plaintiff and Class
28

1 Members that it would only disclose Private Information under certain circumstances, none of
2 which relate to the Data Breach.

3 199. On information and belief, Defendant further promised to comply with industry
4 standards and to make sure that Plaintiff's and Class Members' Private Information would remain
5 protected.

6 200. Plaintiff and Class Members paid money and provided their Private Information to
7 Defendant with the reasonable belief and expectation that Defendant would use part of its earnings
8 to obtain adequate data security. Defendant failed to do so.

9 201. Plaintiff and Class Members would not have entrusted their Private Information to
10 Defendant in the absence of the implied contract between them and Defendant to keep their
11 information reasonably secure.

12 202. Plaintiff and Class Members would not have entrusted their Private Information to
13 Defendant in the absence of their implied promise to monitor their computer systems and networks
14 to ensure that it adopted reasonable data security measures.

15 203. Plaintiff and Class Members fully and adequately performed their obligations
16 under the implied contracts with Defendant.

17 204. Defendant breached the implied contracts it made with Plaintiff and the Class by
18 failing to safeguard and protect their personal information, by failing to delete the information of
19 Plaintiff and the Class once the relationship ended, and by failing to provide accurate notice to
20 them that personal information was compromised as a result of the Data Breach.

21 205. As a direct and proximate result of Defendant's breach of the implied contracts,
22 Plaintiff and Class Members sustained damages, as alleged herein, including the loss of the benefit
23 of the bargain.

24 206. Plaintiff and Class Members are entitled to compensatory, consequential, and
25 nominal damages suffered as a result of the Data Breach.

26 207. Plaintiff and Class Members are also entitled to injunctive relief requiring
27 Defendant to, *e.g.*, (i) strengthen its data security systems and monitoring procedures; (ii) submit to
28

1 future annual audits of those systems and monitoring procedures; and (iii) immediately provide
2 adequate credit monitoring to all Class Members.

3 **COUNT III**

4 **Unjust Enrichment**

5 **(On Behalf of Plaintiff and the Class)**

6 208. Plaintiff restates and realleges paragraphs 1 through 152 above as if fully set forth
7 herein.

8 209. This count is pleaded in the alternative to the Breach of Implied Contract claim
9 above (Count II).

10 210. Plaintiff and Class Members conferred a monetary benefit on Defendant.
11 Specifically, they paid for services from Defendant and in so doing also provided Defendant with
12 their Private Information. In exchange, Plaintiff and Class Members should have received from
13 Defendant the services that were the subject of the transaction and should have had their Private
14 Information protected with adequate data security.

15 211. Defendant knew that Plaintiff and Class Members conferred a benefit upon it and
16 has accepted and retained that benefit by accepting and retaining the Private Information entrusted
17 to it. Defendant profited from Plaintiff's retained data and used Plaintiff's and Class Members'
18 Private Information for business purposes.

19 212. Defendant failed to secure Plaintiff's and Class Members' Private Information and,
20 therefore, did not fully compensate Plaintiff or Class Members for the value that their Private
21 Information provided.

22 213. Defendant acquired the Private Information through inequitable record retention as
23 it failed to disclose the inadequate data security practices previously alleged.

24 214. If Plaintiff and Class Members had known that Defendant would not use adequate
25 data security practices, procedures, and protocols to adequately monitor, supervise, and secure their
26 Private Information, they would have entrusted their Private Information at Defendant.

27 215. Plaintiff and Class Members have no adequate remedy at law.
28

specifically authorized in writing by that individual to receive the information. *See* 410 ILCS 513/15(a).

222. GIPA further mandates that no person may disclose or be compelled to disclose the identity of any person upon whom a genetic test is performed or the results of a genetic test in a manner that permits identification of the subject of the test. *See* 410 ILCS 513/30(a).

223. Defendant is a private corporation registered to do business in Illinois and thus qualifies as a “person” under GIPA. *See* 410 ILCS 513/10.

224. Defendant failed to comply with this GIPA mandate.

225. Plaintiff and the Class are individuals who provided their genetic testing and information derived from genetic testing to Defendant. As explained in detail above, Defendant compelled the disclosure of Plaintiff’s and Class Members’ genetic testing and information derived from genetic testing by failing to provide adequate data security, resulting in the Data Breach. *See* 410 ILCS 513/30.

226. Defendant failed to obtain written authorization from Plaintiff or Class Members to compel the disclosure of their genetic testing and information derived from genetic testing, as required by 410 ILCS 513/15(a), 410 ILCS 513/30(a) and 410 ILCS 513/35.

227. On behalf of herself and the Class, Plaintiff seeks: (1) injunctive and equitable relief as is necessary to protect the interests of Plaintiff and the Class by requiring Defendant to comply with GIPA’s requirements; (2) statutory damages of \$15,000 for each intentional and/or reckless violation of GIPA pursuant to 410 ILCS 513/40(a)(2) or, in the alternative, statutory damages of \$2,500 for each negligent violation of GIPA pursuant to 410 ILCS 513/40(a)(1); and (3) reasonable attorneys’ fees and costs and other litigation expenses pursuant to 410 ILCS 513/40(a)(3).

PRAYER FOR RELIEF

WHEREFORE, Plaintiff, on behalf of herself and Class Members, requests judgment against Defendant and that the Court grant the following:

- 1 A. For an Order certifying this action as a class action and appointing Plaintiff
2 and her counsel to represent the Class and Illinois Subclass, pursuant to
3 Federal Rule of Civil Procedure 23;
- 4 B. For equitable relief enjoining Defendant from engaging in the wrongful
5 conduct complained of herein pertaining to the misuse and/or disclosure of
6 Plaintiff's and Class Members' Private Information, and from refusing to
7 issue prompt, complete and accurate disclosures to Plaintiff and Class
8 Members;
- 9 C. For injunctive relief requested by Plaintiff, including, but not limited to,
10 injunctive and other equitable relief as is necessary to protect the interests
11 of Plaintiff and Class Members, including but not limited to an order:
- 12 i. prohibiting Defendant from engaging in the wrongful and unlawful
13 acts described herein;
- 14 ii. requiring Defendant to protect, including through encryption, all
15 data collected through the course of their business in accordance
16 with all applicable regulations, industry standards, and federal, state
17 or local laws;
- 18 iii. requiring Defendant to delete, destroy, and purge the personal
19 identifying information of Plaintiff and Class Members unless
20 Defendant can provide to the Court reasonable justification for the
21 retention and use of such information when weighed against the
22 privacy interests of Plaintiff and Class Members;
- 23 iv. requiring Defendant to implement and maintain a comprehensive
24 Information Security Program designed to protect the confidentiality
25 and integrity of the Private Information of Plaintiff and Class
26 Members;
- 27
28

- v. prohibiting Defendant from maintaining the Private Information of Plaintiff and Class Members on a cloud-based database;
- vi. requiring Defendant to engage independent third-party security auditors/penetration testers as well as internal security personnel to conduct testing, including simulated attacks, penetration tests, and audits on Defendant's systems on a periodic basis, and ordering Defendant to promptly correct any problems or issues detected by such third-party security auditors;
- vii. requiring Defendant to engage independent third-party security auditors and internal personnel to run automated security monitoring;
- viii. requiring Defendant to audit, test, and train their security personnel regarding any new or modified procedures; requiring Defendant to segment data by, among other things, creating firewalls and access controls so that if one area of Defendant's network is compromised, hackers cannot gain access to other portions of Defendant's systems;
- ix. requiring Defendant to conduct regular database scanning and securing checks;
- x. requiring Defendant to establish an information security training program that includes at least annual information security training for all employees, with additional training to be provided as appropriate based upon the employees' respective responsibilities with handling personal identifying information, as well as protecting the personal identifying information of Plaintiff and Class Members;
- xi. requiring Defendant to routinely and continually conduct internal training and education, and on an annual basis to inform internal

1 security personnel how to identify and contain a breach when it
2 occurs and what to do in response to a breach;

3 xii. requiring Defendant to implement a system of tests to assess its
4 respective employees' knowledge of the education programs
5 discussed in the preceding subparagraphs, as well as randomly and
6 periodically testing employees' compliance with Defendant's
7 policies, programs, and systems for protecting personal identifying
8 information;

9 xiii. requiring Defendant to implement, maintain, regularly review, and
10 revise as necessary a threat management program designed to
11 appropriately monitor Defendant's information networks for threats,
12 both internal and external, and assess whether monitoring tools are
13 appropriately configured, tested, and updated;

14 xiv. requiring Defendant to meaningfully educate all Class Members
15 about the threats that they face as a result of the loss of their
16 confidential personal identifying information to third parties, as well
17 as the steps affected individuals must take to protect themselves;

18 xv. requiring Defendant to implement logging and monitoring programs
19 sufficient to track traffic to and from Defendant's servers; and

20 xvi. for a period of 10 years, appointing a qualified and independent
21 third party assessor to conduct a SOC 2 Type 2 attestation on an
22 annual basis to evaluate Defendant's compliance with the terms of
23 the Court's final judgment, to provide such report to the Court and
24 to counsel for the class, and to report any deficiencies with
25 compliance of the Court's final judgment;

26 D. For an award of actual damages, compensatory damages, and nominal
27 damages, in an amount to be determined, as allowable by law;
28

- 1 E. For an award of punitive damages, as allowable by law;
- 2 F. For an award of attorneys' fees and costs, and any other expenses, including
- 3 expert witness fees;
- 4 G. Pre- and post-judgment interest on any amounts awarded; and
- 5 H. Such other and further relief as this court may deem just and proper.

6 **DEMAND FOR JURY TRIAL**

7 Plaintiff demands a trial by jury on all issues so triable.

8

9 Dated: November 9, 2023.

Respectfully submitted,
